We have several enforcement options under Section 113(a)(3) of the CAA, 42 U.S.C. § 7413(a)(3). These options include issuing an administrative compliance order, issuing an administrative penalty order and bringing a judicial civil or criminal action.

We are offering you an opportunity to confer with us about the violations alleged in the FOV. The conference will give you the opportunity to present information on the specific findings of violation, the efforts you have taken to comply, and the steps you will take to prevent future violations.

Part 82, Subpart F, applicable to recycling and emissions reductions of ozone-depleting substances. The purpose of the regulations is to reduce emissions of class I and class II refrigerants to the lowest achievable level during the service, maintenance, repair, and disposal of appliances. 40 C.F.R. § 82.150(a).
2. Under 40 C.F.R. § 82.156(f), persons who take the final step in the disposal process (including but not limited to scrap recyclers and landfill operators) of a small appliance, room air conditioning unit, Motor Vehicle Air Conditioner (MVAC), or MVAC-like appliance are required to either:
  - a. Recover any remaining refrigerant from the appliance in accordance with specific procedures described in 40 C.F.R. § 82.156(g) or (h); or
  - b. Verify that the refrigerant has been evacuated from the appliance or shipment of appliances previously. Such verifications must include a signed statement from the person from whom the appliance or shipment of appliances is obtained that all refrigerant that had not leaked previously has been recovered from the appliances or shipment of appliances. This statement must include the name and address of the person who recovered the refrigerant and the date the refrigerant was recovered or a contract that refrigerant will be removed prior to delivery. 40 C.F.R. § 82.156(f)(2). Any signed statements must be maintained on-site for a minimum of three years. 40 C.F.R. §§ 82.166(i) and (m).

### **Factual Background**

6. During the August 23, 2012 inspection, EPA also observed a bin of cut copper tubing and a bin full of condenser siding (with and without cut copper tubing) in Apex's warehouse.
7. During the August 23, 2012 inspection, representatives of Apex stated that it does not remove copper for processing.
8. During the August 23, 2012 inspection, representatives of Apex stated that it buys air conditioning units. Apex representatives also stated that the air conditioning units generally come from wreckers or other recycling companies and arrive loose and bailed.
9. During the August 23, 2012 inspection, representatives of Apex stated that it typically doesn't buy window air conditioning units. Apex representatives also stated that each unit accepted by Apex is visually inspected to verify no Freon is present within the unit. ### EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has two such policies that may apply to small businesses:

**EPA's Small Business Compliance Policy**  
www.epa.gov/compliance/incentives/smallbusiness/index.html

This Policy offers small businesses special incentives to come into compliance voluntarily.

**EPA's Audit Policy**  
www.epa.gov/compliance/incentives/auditing/auditpolicy.html

The Policy provides incentives to all businesses that voluntarily discover, promptly disclose and expeditiously correct their noncompliance.

### Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a SBREFA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247), or go to their website at [www.sba.gov/ombudsman](http://www.sba.gov/ombudsman).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

### Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

*EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.*
